

The Nuclear Industry Council (NIC) is the main body to facilitate co-operation between the nuclear industry and Government. Its overarching role is to tackle long-term challenges facing the industry and to help realise future opportunities through strategic decision making.

The NIC is co-chaired by Lord Hutton, Chairman of the Nuclear Industry Association and Jesse Norman, Parliamentary Under Secretary of State, Department for Business, Energy & Industrial Strategy.

Its membership consists of a mix of industry and Government representatives.

Industry
