

# NIA Polling: What the public think

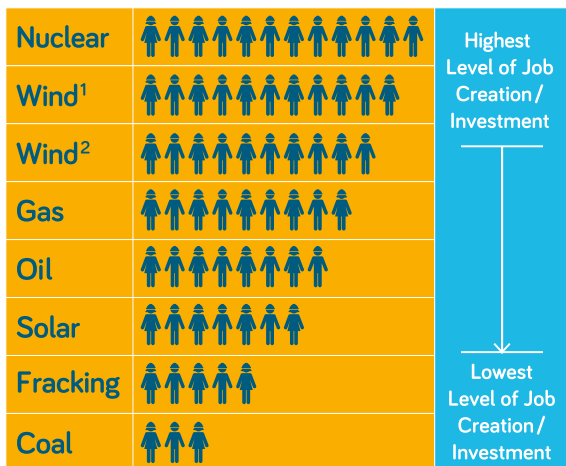

YouGov, on behalf of the Nuclear Industry Association, has carried out polling to find out what the public think about nuclear. Here are the findings of the 2018 research.

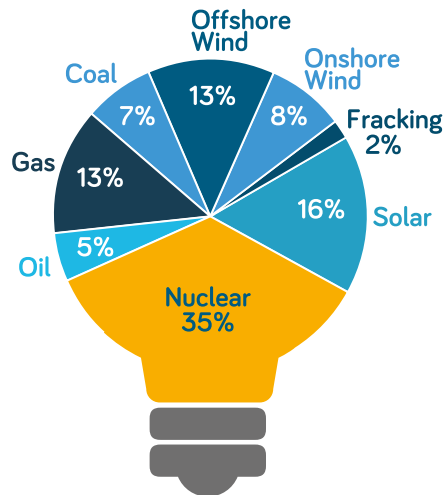

## More people **support** nuclear as part of a low carbon energy mix

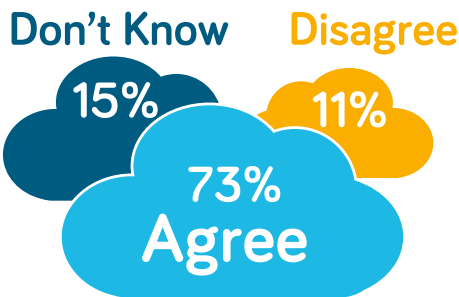

## Nuclear energy is **ranked highest** for job creation and investment

<sup>1</sup> OFFSHORE    <sup>2</sup> ONSHORE

Nuclear energy is seen as **most secure** for keeping the lights on

Most agree government should be doing more to **combat CO<sub>2</sub> emissions**

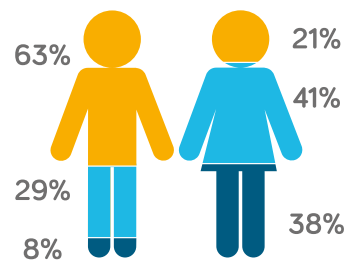

**45%** agree, SMRs could **increase energy security**

**Two in five** agree SMRs could **tackle climate change**

**Men** favour **new build** more than women

■ SUPPORT ■ OPPOSE ■ NEITHER

▲ All results are from a survey of 2,061 people, conducted on behalf of the Nuclear Industry Association by YouGov, 29 November to 6 December 2018
