

NIA Polling: What the public think

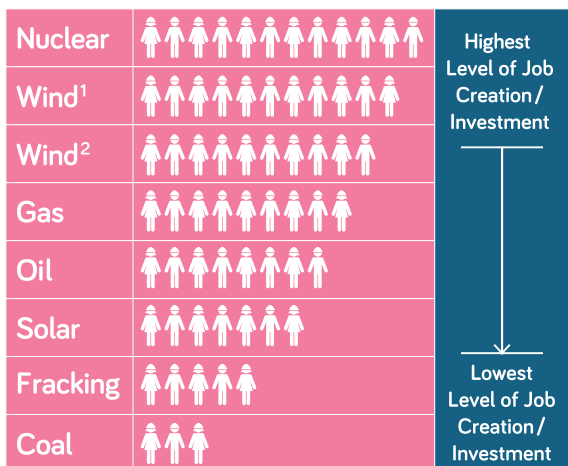

YouGov, on behalf of the Nuclear Industry Association, has carried out polling to find out what the public think about nuclear. Here are the findings of the 2019 research.

More people support nuclear as part of a low carbon energy mix

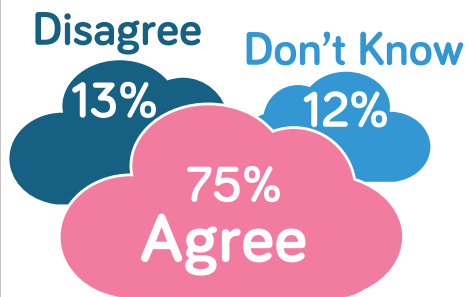

Nuclear energy is ranked highest for job creation and investment

¹ OFFSHORE ² ONSHORE

Nuclear energy is seen as most secure for keeping the lights on

Most agree government should be doing more to combat CO₂ emissions

One of the top three sources for long-term price stability

51% believe nuclear is needed to reach net zero by 2050

Men favour new build more than women

■ SUPPORT ■ OPPOSE ■ NEITHER

▲ All results are from a survey of 2,099 people, conducted on behalf of the Nuclear Industry Association by YouGov, 21-28 October 2019
