

Members Trade Directory

Our Trade Directory is an exclusive tool providing members with the opportunity to promote strengths and capabilities across NIA membership. It is accompanied by a search engine feature which allows users to filter by goods and services offered.

You can explore the directory at www.niauk.org/members-directory.

Please take a moment to review/complete the information required for us to update or create your trade directory entry. Send your completed form to dan.powney@niauk.org.

Please tick to confirm you agree to the collection, use and processing of personal information you provide to NIA for the purposes of entering a company contact in the NIA member directory. You also agree that your information may be accessed and used by NIA staff and members, that membership is company-wide and not individual, and that although housed on a password protected part of the website NIA cannot control how and where its members are accessing the site, and that you understand this information may be seen by a non-member.

You agree to notify membership@niauk.org of any change to your personal information and make requests to check, delete or correct personal information, so that it is accurate and current. You understand that the data requested in this form is necessary for administrative purposes and that it will be held on the NIA's content management system on a secure server.

Members Trade Directory: Search Engine

The Search Engine is part of the Trade Directory feature and enables users to search for a service, product or capability from NIA membership by using drop-down category and market menus.

Simply tick the relevant boxes to indicate skills and services your company offers to the specified markets. All skills and services have been submitted by member companies. If you feel your area of expertise is not represented here please let us know and we would be happy to make additions.
