

# Invitation

*UK Department for International Trade is working with China Nuclear Energy Association to deliver a feasibility study on Sino-British cooperation in nuclear facility decommissioning, waste management and transportation. The report introduces China's current development on decommissioning, waste management, and transportation, and also the potential opportunities for UK-China collaboration.*

*We would like to invite you to join this dissemination event and we also welcome your participation to give a presentation on your capabilities on decommissioning, waste management, and transportation. Please reserve a speaking slot by 15<sup>th</sup> July 2022 when [RSVP](#).*

*China government departments, China nuclear industry experts, Chinese engineering companies, nuclear power plants, and research institutes will be invited.*

*Simultaneous interpretation is provided.*

**Please register your interest to receive the updated agenda and a copy of the report.**

**Dress code:** Business Casual

Hosted by

UK Government

The UK's Department for International Trade (DIT) has overall responsibility for promoting UK trade across the world and attracting foreign investment to our economy. We are a specialised government body with responsibility for negotiating international trade policy, supporting business, as well as delivering an outward-looking trade diplomacy strategy.
