**What is the NIA?**  
The Nuclear Industry Association (NIA) is the trade association for the civil nuclear industry in the UK, representing more than 250 companies across the supply chain. The diversity of NIA membership expertise in new build, management and decommissioning enables effective and constructive industry-wide interaction.

We believe nuclear is essential to Britain achieving a Net Zero energy future. Together with renewables and energy efficiency, nuclear can reduce our carbon emissions. As part of a diversified energy mix, modern nuclear-generated energy can provide safe and reliable sources of power for Britain's homes, hospitals, schools, and industries.

WORKFORCE OF THE UK CIVIL NUCLEAR INDUSTRY

For over a decade the Nuclear Industry Association (NIA), the trade association for more than 250 companies across the nuclear supply chain, has released an annual Jobs Map for the UK civil nuclear industry.

The Jobs Map displays clearly the range and diversity of companies across the UK and the number of employees engaged in the civil nuclear industry.

This tool is designed to give Government and decision makers up-to-date and accurate figures, reflecting the significant contribution NIA members and their employees make to the UK economy.
