# LEARN HOW TO EXPORT FROM CIVIL NUCLEAR EXPERTS

## **BECBC Nuclear Group Meeting**

**9 March 2023, 12:00 - 16:00**

This event is delivered in collaboration with the Department for Business and Trade with an international theme. Hear from Tim Gilroy, civil nuclear expert, Tiffany Solender, international trade advisor & NPH clean energy specialist, Kerstin Rath, senior trade advisor for civil nuclear based in Germany and Luisa Craciun senior trade advisor based in Romania and the CEN (Central Europe) representative.

Matt Mellor from Createc will talk about how the support from Department for Business and Trade helped Createc build an export market.

This event will help you decide if exporting is for you and if so which markets to focus on. If you already export it will help you to focus on the right markets moving forward and make sure you're aware of the support available to help you build your export market.
