

BENEFITS OF MEMBERSHIP

BECOMING AN NIA MEMBER WILL OPEN YOUR COMPANY UP TO A WHOLE NEW WORLD WITHIN THE NUCLEAR INDUSTRY

The Nuclear Industry Association is a highly effective advocate, providing a dynamic and credible voice on behalf of its members. Whether your business is solely based in nuclear, or nuclear makes up a part of what you do, or if you are looking to join the sector, there are many ways NIA membership can benefit your business.

Membership gives you...

Networking opportunities

NIA brings together the whole industry and allows companies to exchange ideas, hear about opportunities and help develop important policies through our business group programme and events.

Promotion to industry

NIA offers a range of promotional benefits to members through our quarterly magazine Industry Link, weekly e-newsletters and exclusive online Member Directory.

A voice for industry

NIA is the voice of industry in Westminster and the media. We advocate for all parts of the sector, from existing operations to new build, the supply chain and decommissioning.

“The NIA provides an important, independent voice into policy makers and government officials as well as providing a broad spectrum of well organised business groups and events which are a must for anyone looking to participate in the UK’s ambitious nuclear objectives.

RACHAEL GLAVING
COMMERCIAL DIRECTOR,
EDF ENERGY – GENERATION

As proud and active members of the Nuclear Industry Association, TWI Ltd finds immense value in the collaborative environment that fosters cutting-edge insight and industry advancements. Our association membership serves as a strategic gateway, offering unparalleled networking opportunities, access to industry intelligence, and a platform to collectively shape the future of nuclear energy. It's not just a membership; it's a dynamic partnership driving innovation in the heart of the nuclear sector.

CHRIS OTTER, NUCLEAR INDUSTRIAL MEMBERSHIP MANAGER, TWI LTD

Networking opportunities

NIA Business Groups give you the chance to raise your company profile across industry. Meet Tier 1's and engage with partners, including SMEs—both established suppliers and new players in the market. Give yourself opportunities to understand other members' unique products and services that could support your own business.

We bring the whole industry together and allow companies to exchange ideas, hear about opportunities and help develop important policies.

Our groups, which cover New Build and Existing Generation (including SMRs), Decommissioning and Waste Management, Legal and Financial Affairs, International, Fusion and Quality, are led by industry for industry to ensure members get the most up-to-date and relevant information for their business. They each meet throughout the year across the UK.

Discounted events

In addition to free attendance at our extensive Business Group meetings and webinars, all members receive discounts to attend and exhibit at our flagship conferences, where you will hear about new opportunities and meet senior leaders from across industry and government.

We also negotiate discounts for members for other events and conferences in the UK and overseas, which are advertised on our website and in member communications.

Being a member of the NIA has benefitted M5tec in many ways. Their business group meetings are well managed and informative and provide the perfect opportunity to network with nuclear professionals. Their weekly newsletters help to keep us updated with relevant affairs and their approachable staff are always available to offer advice and make introductions to other companies. Our NIA membership is vital to our business development and growth plans.

CRAIG CHALDER
MANAGING DIRECTOR, M5TEC

Promotion to industry

NIAUK.ORG hosts a secure area where you can access our Members Directory, an exclusive tool showcasing the products and services of NIA members. The directory provides key contacts and promotes your company to fellow members.

NIA members can contribute articles for our quarterly magazine, Industry Link, as well as news stories and press releases on our website Hub, helping to promote your business across the sector and beyond.

We share knowledge exclusively with members through our weekly e-newsletters which highlight important industry news and key legislative and regulatory changes you need to be aware of as well as forthcoming events.

A voice for industry

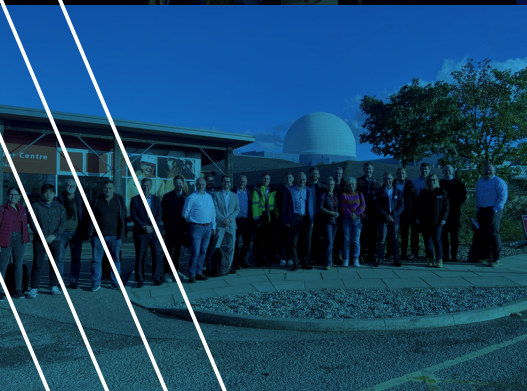

NIA is the spokesbody for industry to government, parliamentarians and journalists. We advocate for all aspects of the sector and want to ensure the nuclear industry can grow—helping you take advantage of opportunities at home and overseas.

Members have the opportunity to influence NIA policy positions through our Business Groups and inform our consultation responses, meaning your thoughts will go directly to policymakers within government.

Get involved

Members can attend, present at or sponsor our Business Groups, which consistently attract a strong cross-section of companies. The programme of events provide the information you need to navigate the sometimes complex nuclear supply chain, while also making valuable new contacts across the sector.
