

Introduction to UK Civil Nuclear Sector Workshop for GIFEN

Role of NIA

Gareth Davies - Chair NIA International Group

**Tuesday 7th July 2026
Stephenson Harwood, London**

About the NIA

- NIA - trade association for UK's civil nuclear industry
- Supports 330 + member companies across nuclear life cycle/ supply chain
- NIA Priority - ensure members central to delivering the UK's nuclear opportunity
- NIA two broad areas of operation:
 - Promoting 'nuclear' - Lobbying / PR / Comms - engage with public, media and political spheres
 - Member interests – business Groups, meetings, events – maximising the commercial opportunity – supply chain and promoting member interests

UK Civil Nuclear Sector Overview

- Hinkley Point C (3.2 GW) peak construction
- Sizewell C (3.2 GW) site preparation
- GBE-N and RR SMR 3 SMRS (1.4 GW) at Wylfa, work underway
- Major decom works at Sellafield, inc plutonium and high hazard reduction
- Operations on Existing fleet/ transfer to decommissioning
- Fusion demonstrator funding with construction consortium named
- Government backed HALEU facility at Capenhurst
- Advanced Nuclear Framework for privately-funded projects

Key benefits

Membership
gives you...

Networking opportunities

NIA brings together the whole industry and allows companies to exchange ideas, hear about opportunities and help develop important policies through our business group programme and events.

Promotion to industry

NIA offers a range of promotional benefits to members through our quarterly magazine Industry Link, weekly e-newsletters and exclusive online Member Directory.

A voice for industry

NIA is the voice of industry in Westminster and the media. We advocate for all parts of the sector, from existing operations to new build, the supply chain and decommissioning.
