For over a decade the Nuclear Industry Association (NIA), the trade association for more than 340 companies across the nuclear supply chain, has released an annual Jobs Map for the UK civil nuclear industry.

The Jobs Map clearly displays the range and diversity of companies across the UK and the number of employees engaged in the civil nuclear industry.

This tool is designed to give Government and decision makers up-to-date and accurate figures, reflecting the significant contribution NIA members and their employees make to the UK economy.
